Appendix B Projected Auto Characteristics[1]

Key to tables (see table B.1):

Column	Description
a Vintage	Year in which the vehicle was manufactured.
b Number of models	The number of makes and models of this class manufactured in the year designated in column a.
c Price	The average price, in 1978 dollars, over all makes and models in the class. For vintages 1976–1979, the price is as seen in 1980 (e.g., the price given for a 1976 vehicles is the cost of buying a 1976 vehicle of this class in 1980). For vintages 1980–2000, prices are for new cars in the year manufactured (e.g., the price given for a 1990 vehicle is the cost of buying a 1990 vehicle of this class in 1990).
d Shoulder room	Front and rear shoulder room in inches, averaged over all makes and models in the class.
e Variance of d	Variance of shoulder room across all makes and models in the class, in inches squared.
f Luggage space	Average luggage space in cubic feet for makes and models in the class, for classes of autos; zero for truck classes.
g MPG	Miles per gallon, averaged over makes and models in the class.
h HP	Horsepower, averaged over makes and models in the class.
