Dear David,

In my letter to you dated May 4 2009, I indicated we would release further information on the individual economic projections made by FOMC participants in semiannual Monetary Policy Reports. Attached, please find those projections made in 1999 and 2000.

By way of caution, and as stated in my earlier letter to you, the records from which I compiled these individual projections may be incomplete, in that subsequent revisions may have been submitted but not retained. Also, note that the tables do not include projections from the Chairman; we have no record of such projections.

The variables being projected are defined as in the corresponding Monetary Policy Reports, which are printed in the Federal Reserve Bulletin.

Sincerely,

David Small
